

Burkett: '68 Harvest Queen

Belle Glade Beauty Is Crowned

Crying for joy, Pat Burkett, sixteen year-old daughter of Mr. and Mrs. Charles D. Burkett, 1601 SE Ave. K, Place, accepted the judges decision naming her the 15th Annual Harvest Queen, Friday night.

Sponsored by the local Junior Chamber of Commerce, the panel of five judges deliberated more than thirty minutes before selecting the Belle Glade High School Junior from eight finalists, who in turn were chosen from a field of 54 Glades area contestants.

Runnersup for the title were Barbara Meeks, a local high school senior, and Pam Ursary, a junior from Pahokee High School.

The program was originally slated to begin at 8 p. m. however, lighting problems threatened to ruin the show, according to Ray Alston, Pageant Co-chairman. Rev. Richard Y. Roseman, pastor of St. Peters Episcopal Church, was co-chairman with Alston.

Channel five cameramen didn't arrive till starting time, said Alston, and when they plugged into the stage our special lighting and effects equipment blew their fuses. Extension cords finally had to be used by the cameramen.

Also, dry ice was to have been mixed with boiling water to create a cloud effect of the stage and colored lights were to have accented the vegetables, said Alston, but without the cloud effect the vegetable "clouds" stood out like sore thumbs.

The real letdown was that over 150-man-hours had been put into preparing the stage for the queen contest. Fifty man-hours were used to put up the decorations for the Talent Night.

Master of ceremonies for the queen contest was Robert (Bob) C. Lee, who announced the winner of the Talent Contest, held Thursday night. Miss Lynn (Cookey) Drayton was the winner and the runnersup position was tied between Colette Carpenter and Judy Todd.

Miss Barbara Ellis, 18, was selected by the queen contestants for the "Miss Congeniality" award.

About 460 attended the Talent night and around 1500 came to the queen contest, said Alston, who wanted to express his thanks also to the Pepsi-Cola people for furnishing cold drinks for the contestants backstage.

Spring Gardening In Florida

By Hervey Sharpe
In spring trees are like some fickle young ladies. Both take on annual rings. But trees are different because they can't become engaged, quarrel and return their rings.

However, trees can become unhappy and sigh if they can't get food to sustain their annual growth ring. So to keep your trees engaged in growing rings, feed them.

Like humans, trees need a hearty breakfast after a long winter nap. Feeding trees is simple. Start the job with a crowbar or a length of 3/4 inch pipe.

NUEVAS LICENCIAS PARA AUTOS

Nuevas chapas para licencias de automóviles y vehículos pueden ser compradas comenzando el día primero de Mayo. Las nuevas licencias deben estar puestas en todos los vehículos para el día 20 de Junio.

RE-EXAMENES DE CHOFER.

Desde Tallahassee desean hacer saber que en los re-exámenes no serán necesarios pruebas de manejar, ni exámenes sobre leyes de tráfico o exámenes médicos, en la Florida.

En respuesta a las muchas preguntas sobre la nueva ley de 1967, desean informar que los choferes deberán pasar solamente pruebas de la vista, oído y habilidad para leer y entender los signos de tránsito. Aun con estas pruebas limitadas se espera descubrir y poner bajo restricciones correctivas a los drivers con vision u oído defectuosos.

En la Florida la sordera no es motivo para negar la licencia de manejar. Los sordeos se les limita solo a manejar vehículos equipados con espejos retrovisores.

Bajo el nuevo sistema que comenzará en Enero 1, 1971, cada driver será re-examinado cada cuatro años.

En este programa, los drivers no capacitados quedarán impedidos de renovar y tener licencia.

Juniors On The Rampage

During the week of March 18-23, the swinging juniors of our school sponsored Junior Week. Everyone cooperated one-hundred percent. The plans for the week were as follows: Monday—Dress-up Day Tuesday—Slave Day Wednesday—Twin Day Thursday—Rough-dry Peacock Day Friday—Turn About Day

To explain in detail: Monday everyone came to school looking their very best. Even the boys of 11-1 homeroom cooperated. Tuesday was the boys' day to relax from carrying books and lunch trays. They loved every bit of it, but I don't think the girls did. Wednesday everyone chose someone to dress like. They all looked lovely. Thursday was the funniest day of the Juniors' week. They really showed their creativity by making plaid, stripes, flowers, and you name it. It was silly but fun. Friday was the day for girls to take the place of boys, courtesy wise, (open doors, carry books, etc.) Friday afternoon the juniors had an assembly program to wrap up their week, displaying their talent. There were songs, dances (creative and modern), skits and a little bit of everything. The purpose of this week was to raise money for the Junior Class. We would like to Junior Class to take an educational trip. We would like to Junior Class to take an educational trip. We would like to Junior Class to take an educational trip.

Atrazine makes cane labor more profitable.

As weed killers, hand laborers are just too costly. But they're indispensable for other vital cane growing jobs. So use them for those jobs. Not for weed control.

Weed control is the job for Atrazine. The herbicide most recommended for growing clean sugarcane.

The reason is, it works. Atrazine controls most annual broadleaf and grassy weeds, including pellitory weed, lambquarters, crabgrass, pigweed and others.

And it does it easily, economically. Without damaging the crop. Without irritating the applicator. And reduces or eliminates costly hand labor.

The payoff is a bigger yield. Mainly, because Atrazine clean sugarcane has all the soil nutrients, moisture and sunlight to itself. And weeds can't stop proper tillering.

In the past, weed control may have been something you got around to if you had the time and the labor.

But not anymore. Not since Atrazine made weed control so profitable.

If you're not using Atrazine yet, you may not be making the most efficient use of your labor and equipment. Check with your supplier. Or for more information write us.

Helpful Hints Susan, Hospital Aide

When you are about to clean your room attach a small paper bag to your apron or pants. Into it you can drop dirty bobby pins, clips, and other "lost" items.

For a sweetly scented closet, remove the wrapper from a bar of soap with a net. Tie a ribbon around the top and hang the soap from a hook in your closet.

When you redecorate your room, the waste basket needs a new look. Cover it with gift paper in a gay print and pretty colors. The same paper can be used in drawers and on shelves, giving a bright, new look to your room.

Soap that's too small to use doesn't need to be wasted. Just drop the pieces in a bag by sewing two washcloths together. When the bag is full, sew the top and enjoy your "self-soaping" washcloth.

Don't throw away those near-empty nail polish bottles. Combine all the polish in one bottle, to the shade desired, and add some nail polish thinner. Practical—and fun.

To save time and crumbs when you're slicing a cake, use a piece of thread instead of a knife. It will give you a neater slice. Try it.

Q. Why is it that my hands get more chapped than my friend's? I do the same things they do and am outside the same amount of time as they are. I'm using hand cream to soften my skin and it seems to have some effect. But I was just curious to know why I suffer from this problem more than they do.

A. How handy are you about the house? Do you wash dishes for your mother? Do you vacuum and dust? Do you help with the house cleaning? All these activities contribute to skin dryness and chapping. In fact, household chores rank third after blustering weather and indoor heating as prime cause of dry skin on hands.

Why? Because abrasion of the skin occurs when you scrub and rub. This abrasion hurts your skin and dries out rapidly. Every girl has her own individual "threshold" of dryness, and she progresses to it at her own rate of speed. Skin dryness occurs first whenever the skin is thinned—and at this time of your life, this means your hands. The next dried parts of your body are usually the tops of your feet, the backs of your heels and your elbows.

Even though dry skin may look tough and feel rough, it is as absorbent as a blotter. That's why hand cream is effective—it penetrates to supply badly needed moisture and glands.

Susan, Hospital Aide

By: Alice Colver Susan, Hospital Aide is the story of a young lady, who's a sophomore in college, and the things she experienced as a hospital aide at a medical center in New York.

The author of Susan, Hospital Aide, Alice Colver, is the mother of three, a wife and a writer. She wrote many books for your ladies to relay some of the things she experienced while traveling around the country with her family. Alice Colver was inspired to write this story when she met Susan McCarty at a hospital she worked at.

She saw Susan and she seemed to be so enlightened by her summer vacation at the medical center until Miss Colver couldn't resist this opportunity to write.

The story began as Susan was first finishing her packing for her summer vacation. Her roommate, Lynn, was sprawled across the bed reading a magazine. Susan hadn't decided what she was going to do over the summer, but Lynn had.

Susan looked at her window and saw Don, her next door neighbor, so she took her bag down, she assumed that Don had come to take her home. Don had come to take Susan home so they left.

On their way home Susan told Don that she applied for a position at a hospital aide at a medical center but she hadn't received a reply. Don told her that he would be stationed near the center.

When they arrived home, Susan greeted her family and they sat down to dinner. While they were eating Susan received a call from the director at the medical center. She was to check into the dormitory no later than six o'clock Sunday afternoon.

Susan checked into the dormitory and one of her old friends, Meta, showed her around. After they finished dinner in the cafeteria, Meta introduced Susan to Dick Hobbart. Dick acted very shy (this surprised Susan) and merely said "hello".

Enriched Foods

When you use the word "enriched" on bread, flour, and cereal products, it means that iron, riboflavin, niacin, and thiamine are added. Highly refined cereal foods are "enriched" to restore levels of these four nutrients to the amount found in the whole grain, or in excess of whole grain levels.

Senior Who's Who

The members of the Merit Publishing Company who sponsor the Merit's Who's Who Among American High School Students has selected eight members of the Lake Shore graduating class as representatives of Lake Shore's 1967-68 edition of Merit's Who's Who Among American High School Students.

The following students were chosen and selected for their outstanding achievements in high school, they are: Curtis Pierce, Mary Nelson, Gloria Butts, Catherine Lowe, Vivian Berry, Helen Ray, Daisy McCoy and Johnny Lusane.

This is a great honor to be bestowed upon any high school student. These students receive recognition nationally for their achievements. The recognition is in particular with his relationship with girls. It seemed the forced him into many of his decisions. He had been forced to attend West Point. Stewart found it easy to talk with Susan and they became good friends.

Don, who was in love with Susan, became jealous of Stewart. He was always talking about him. Susan and Don had a big argument about Stewart to they weren't writing each other.

Near the end of her stay at the medical center, Susan accepted a new patient, Alice Colver. Miss Colver was ill and Susan was to care for her. Susan had to decide what she was going to do over the summer, but Lynn had.

Susan looked at her window and saw Don, her next door neighbor, so she took her bag down, she assumed that Don had come to take her home. Don had come to take Susan home so they left.

On their way home Susan told Don that she applied for a position at a hospital aide at a medical center but she hadn't received a reply. Don told her that he would be stationed near the center.

Election Time Here Again

The members of the Lake Shore family are now in the process of undertaking their annual election. The election will be held on April 9 at election Day.

The Election Committee this year will be headed by Sally Cameron, as Chairman of the group, and her co-workers are Gloria Butts, Edna Grayson, Edna Johnson and George Myrick. This committee will be held responsible for two separate assemblies to be held on April 5 and 8. Election ballots will also be handled by this committee.

The election events for this year are as follows: Filing Week—March 18-22, Campaign Week—April 1-5, Screening Week—March 25-29, Assembly—April 5 & 8, Election Day—April 9.

A GREAT SHOW—

If you missed the 15th annual Harvest Queen Talent Contest, Thursday, March 23, then you missed a show better than any special you are likely to see on television soon.

More important, you missed some of the good teenagers in our community as they put their best foot forward. The "other kind" used to be the rarity and so made news and people read about them. Now days you sometimes have to look hard to find a story complimenting the sincere student who will someday be coming a working part of American society.

Judges for the event were the Hon. Donald P. Kohl, Palm Springs Waddy Batson, National Director of Florida Jaycees, Melbourne; and Mrs. Fred Holtoff, choir director, Lake Park.

Winner of the contest was seventeen year-old Lynell Diane Drawdy, a senior at Belle Glade HI School.

THE PARTIES OVER — Contestants of the Talent Contest group up for a last song together. Front row, L-R: Henriette le Grande, Donna Lee Collier, Cooley Drawdy, Terry Crews; second row, Wilma Kirchman, Colette Carpenter, Karen Parker, Peggy Olson; back row, Susan Boggs, Cynthia Thibaud, Joanne Harris, Joan Taylor, Gail Parker, Judy Todd and Brenda Buckner.

68-69 Season Is Established By Commission

Florida's 1968-69 hunting season for resident game birds and animals was established by the Game and Fresh Water Fish Commission at its meeting in Jacksonville on March 28, according to W. B. Copeland, Chairman.

The framework is basically the same as last year. In the First, Second Fourth and Fifth Districts the season opens one-half hour before sunrise November 9 and closes one-half hour after sunset January 5. In the Third District (Northwest Florida) the season opens one week later, November 16, and closes January 19. Quail and squirrel season remains open until February 23 in all districts except the Third, where it closes March 2.

The Commission also established an archery hunting season to open September 14 and continue through September 29. The archery season is statewide except for Dade and Broward counties, Palm Beach County south of State Road 80, Monroe County south of the Loop Road, and that portion of Hendry County located east of Levee L-1 and L-2.

According to the Commission, the areas from the archery season include the Everglades which is not adaptable to the usual concepts of bowhunting. At the Jacksonville meeting the Commission removed the game animal classification from wild hogs in Levy County and also provided that Levy County would be closed to bear hunting during the statewide open season.

The Commission established a special deer and bear hunting season for DeSoto, Hardee, Manatee and Sarasota counties to open November 9 and continue thru November 17, and to reopen December 21 and continue through January 5. The turkey hunting season in Hardee, Manatee and Sarasota counties will coincide with the two phase deer and bear season. The turkey season in DeSoto County will be the same as the remainder of the First District November 9-January 5.

Other changes in the 1968-69 hunting regulations provide for a turkey hunting season in Madison County from November 9 through January 5, a n.w. during the spring gobbler season plus the establishment of a still hunting area in Levy County. The special nine-day deer season in Gilchrist and that portion of Levy County between State Roads 317 and 339 was eliminated and the 1968-69 season for this area will coincide with the Second District.

The spring turkey gobbler season for 1968-69 will open March 9 through March 23 in that portion of the state located south of State Road 50 and March 22 through April 6 in that portion located north of State Road 50. Only bearded gobblers will be legal during the spring season.

The 1968-69 daily and possession limits for resident game animals and birds remained unchanged and hunters will be allowed a daily bag of two deer, two turkeys during the fall season and one gobbler during the spring season, ten grey squirrel, two fox squirrel, 12 quail, one bear and one wild hog in areas open for wild hog hunting.

Take care of any trees on the lot where you plan to build some day. It is often easier to see existing trees than to start new ones.
